

# We challenge anyone to design a better mini servo line at a lower cost

## The redesigned, simplified Rapid-Air MS line

Rapid-Air quality available at the lowest cost in the industry?  
How did we do it?

- We've employed new, innovative manufacturing techniques to cut our costs and pass the savings to you.
- We've simplified the design with fewer, more heavy-duty components further reducing any maintenance required.
- We've beefed up the motor and drive for higher speeds and faster progressions.

Starting at just...  
**\$3,450**

All at a cost so low, you can buy several to mount and leave on individual dies, saving substantial set-up time, while assuring repeat precision. We'll customize to match your specific needs. Many features and options available.
